Predominantly used as under cabinet lighting, but with many other applications in a domestic environment, this range of ultra slim profile, high quality LED striplights uses the latest SMD LED technology to provide energy savings of up to 50% when compared to traditional T4 strip lights.

As well as making huge energy savings, maintenance costs are also negated throughout the lifetime of the fitting, so no more flickering or blown tubes to replace.

Each link light comes complete with power cord without plug, link cable for interconnecting fittings or can be butt connected directly together to provide longer lighting solutions and are particularly suitable for:

- Cabinet displays
- Kitchen wall units
- Cornice lighting
- Workbench lighting

- Kickboard lighting
- Under counter
- Bed headboard
- Wardrobe lighting

FEATURES	BENEFITS

- Complete kit:
 - $_{\odot}$ Fitting with male and female butt connectors
 - o Plug-in power cord 1850mm long (no plug)
 - o 600mm linking cables
 - o Vertical & horizontal mounting clips
 - o Link up to 6 fittings together
 - Optional power cord with plug

- Nothing else required
- Fast and simple installation and direct linking of fittings
- Saves time quick and simple mains connection to fused spur
- Space the fittings out if required go around corners
- Enables light to be directed downwards or backwards
- · Only one power source required for longer runs
- Simple plug into socket connection
- High quality, high light output, low power SMD LED's
- Provides:
 - Huge energy savings of approximately 50% compared to T4
 - Long life without the hassle of replacing flickering or blown tubes

Switch all fittings on with main switch or can be individually switched

- Instant flicker free start
- Integral LED driver No separate driver to mount makes a fast and neat installation
- Cool white light colour with high CRI LED's
- A cool crisp light colour for more task oriented lighting True colour rendering is produced for enhanced visual quality
- Available in 5 different wattages and lengths
- Caters for most cupboard or unit sizes to ensure uniform

Ultra slim profile polycarbonate body and diffuser

- Luminaire can easily be hidden behind pelmet
 Durable and long lasting
 - Durable and long lastingDiffuser provides uniform even light coverage

Integral switch

IP20

Suitable for internal applications

light distribution and effect

3 year guarantee

Piece of mind – fit and forget
